### **THANK YOU!**

My mother's recent passing taught me a few unexpected things. I've always known how much people loved her, and I knew there would be a big outpouring of love and support from her friends and family when she passed. What I didn't realize is how many people are there for me in my life who were willing to drop their plans to pay respects or take a few minutes to call, text, send a card, or just give me a hug. Among those who did this were so very many of my DDT friends!

My God mother commented to me just recently that breast cancer was one of the best things that ever happened to me. She's right because it brought this awesome sport and all of you into my life. From the bottom of my heart-thank you!

My mom passed peacefully while my sister and I held her hand. This was a true blessing as both of us have had so much anxiety about her for years. She has been so frail, and I worried that she would experience pain, be alone when she passed, or that I would not be there. In spite of all of her ailments (Alzheimer's, stage 4 breast cancer...), she stayed positive and funny up until the day before she died.

She was able to continue to play the piano daily up until two days before she died and even completed a final painting two weeks ago! I consider myself blessed and so properly cared about by so very many people, particularly my teammates. ~ submitted by Jill

---

Just wanted to let you all know that I have moved to Columbus to be closer to my grandchildren and am so sad I will no longer be able to be a part of the team. Thank you all for welcoming me to the Dragon Dream Team and I loved being a part of such an incredible group of women. You are all such an inspiration!! ~ submitted by Janeen Nelson

## **COACHES' CORNER**

### Experience

On August 10<sup>th</sup>, we raced on Lake Chautauqua. This normally tranquil lake turned ugly for our visit. It was cool and windy. And when winds come down a long lake, whitecaps result. Needless to say, race conditions were less than optimal.

But memory is a strange thing. We don't remember the easy stuff. We recollect and tell stories about the tough stuff – the races in which water comes over the bow, the races with waves over the paddlers' heads, the races in which drummers can only hang on and the races where you almost lose your steer (heaven forbid!!!). That's where we learn just how tough we are and that was Chautauqua!

It's been said that, "Mother Nature is a hard teacher! First, she gives the test, then the lesson." While we all got wet (some soaking wet), we managed to return to the dock as many times as we left .....with the boat. Mother Nature taught us a lot. And for years to come, we'll say, "Remember Lake Chautauqua?".....And nod wisely.

Paddles Up! ~ Coach Allen

The Dragon Dream Team is Ohio's first group of breast cancer survivors participating in the team sport of dragon boating. Inspired by the courage of the dragon and the power of the paddle, our mission is to support and care for each other, increase self-esteem, physical and emotional wellness through paddling. The Dragon Dream Team demonstrates that life after breast cancer can be full, active and beyond all expectations. Our "Boatloads of Hope" community outreach program offers encouragement and support to breast cancer survivors and their families during the treatment phase of their cancer journey by the delivery of pashminas in area hospitals and cancer facilities, along with a powerful message of hope. The Dragon Dream Team is a 501(c)(3) organization.
